Position Overview

Due to our exciting new relationship with Virgin Australia, we are currently seeking an experience Line Planner to join our Maintenance Control department.

Reporting to the Planning Technical Records Supervisor, you will be accountable for the planning of all scheduled maintenance, the Systems of Maintenance and the daily administration of the maintenance required on the Skywest fleet. Additional duties include:

- Replacement of major components and Airworthiness instructions via the Integrated Aviation Software (IAS).
- Support Senior Maintenance Planner in all short and medium term maintenance planning functions.
- Monitor of any special inspection schedules and requirements.
- Monitor of airworthiness directive compliance and ensure AD's and service bulletins are carried out within mandatory timescales.
- Monitor open MEL's, CDL's and PUA's
- Assign aircraft registration to movement schedules for planning purposes and notification to Flight Operations

To be successful in this role you will hold aircraft engineering qualifications and have a minimum of two years in a similar role in the aircraft industry. Key knowledge and understanding of regulatory requirements, MCM, reliability and MEL are essential to this role.

Benefits and Remuneration

In return, commensurate with skills and experience we will offer a competitive remuneration package along with salary sacrificing options and generous travel benefits. In support of work life balance, benefits such as flexible working arrangements may be negotiated to meet your personal circumstances.
