Position Overview

We currently have two unique opportunities for experienced Maintenance Watch Engineers to join our Airworthiness and Maintenance Control team in our Brisbane base.

Reporting to the Technical Services Manager you will be the focal point of contact for all issues where aircraft flight schedules may be affected due to technical reasons. Your responsibilities will incorporate ongoing oversight of engineering operations, defect monitoring and ensuring the availability of aircraft for flight schedule.

Successful applicants will possess aviation trade certificates and licences on our Fokker and ATR aircraft with a thorough understanding of the IAS system. Applicants must possess excellent communications and reporting skills with a strong commitment to assist resolving technical problems quickly.

Benefits and Remuneration

In return, commensurate with skills and experience we will offer a competitive remuneration package along with salary sacrificing options and generous travel benefits. In support of work life balance, benefits such as flexible working arrangements may be negotiated to meet your personal circumstances.
